

MONTE NEGRO

**THE NEXT
PLACE TO MEET**

Montenegro is increasingly being included on the list of the most popular destinations for MICE tourism. It is located in the heart of the Mediterranean, on the beautiful, 294 km - long Adriatic coast. Montenegro is linked to the major congress tourism centers in the region through its borders with Serbia, Croatia, Bosnia and Herzegovina, Albania and Kosovo. Also, Italy is just across the Adriatic sea and other major European metropolises are only two and a half hours plane ride away. This undiscovered destination is rapidly evolving, creating the ideal conditions for rest, relaxation and the organization of the MICE events. Although it is a small-sized country, Montenegro has high-quality capacities for hosting conferences and similar stimulating and team-building activities. The attractive Mediterranean coastline is where the most famous congress destinations are located. Thus, when we talk about MICE capacities the most distinguished places include Budva with Becici, Bar, Ulcinj. In addition, the Capital city of Podgorica and Kolašin in the North are also prominent MICE destinations. The vicinity of the seaside to the mountains in Montenegro is ideal allowing tourists to visit all popular sites in the same day. The weather conditions are favorable, considering that there are 240 sunny days over the year.

With the arrival of prestigious hotel brands and new international hotel chains, Montenegro is becoming very trendy as the place for organizing very demanding high production MICE events and is attracting increasing volumes of prominent international business individuals.

Given the title of ecological state, and the great potential for adventure, eco and event tourism, Montenegro is able to meet the high expectations of MICE visitors in line with the world standards. Also, very encouraging is the fact that hotels have invested heavily in the quality of their offer over the last few years, so in present Montenegro has a large offer of hotels with 4 and 5 stars. Tourist offices in this small country are also dedicated to creating a favorable environment that attracts renowned foreign investors. For the abovementioned reasons, our country is constantly recording economic growth and development.

Apart from its natural beauties, Montenegro is also considered appealing for its exquisite gastronomic-catering offer, which contributes to making the business travellers' stay even more pleasant.

Testimonials

The Convention we were able to hold in Budva will be remembered as one of the most successful Annual Conventions in the history of the German Travel Association. The feedback we have received so far from the participants, is downright positive and already at this stage very impressive. With perfect organisation and excellent hospitality our hosts in Montenegro have enthralled the German travel industry and won it over.

God must have fallen in love with this little country as beautiful as it has become. Thanks for the perfect organisation I'm very happy that this beautiful country is so close to us.

Gesine Juttner

I think that, in 2012, the German Travel Association DRV looked after a marvelous host partner for its annual meeting. Montenegro with the city of Budva presented itself in its best and with a very great variety of ideas and music. They were a customer-orientated host and the organization was excellent. Even the weather, with quite a lot of sunshine, completed the overall presentation of Montenegro. Thank you to the organization team – very well done!
